

# zudo-doc - Asset viewer spec (page 1/2)

1. Every file under public/assets/ gets a viewer page.
2. Text/code -> highlighted source with line anchors.
3. Images / video / PDF -> inline preview.
4. Everything else -> download panel.
5. Each page lists the docs that link to the file.

## zudo-doc - Asset viewer spec (page 2/2)

URL scheme, naming and build-time metadata are open questions;  
see [index.html](#) in the prototype folder.

(sample PDF generated for the prototype)
